The constant research of Atlas Concorde Laboratories has led to the creation of Sensitech, the porcelain tile surface for interiors made using a production method patented in Italy that combines superior slip-resistance with an unprecedented tactile softness, guaranteeing ease of cleaning and maintenance.

Dalla costante ricerca dei Laboratori Atlas Concorde nasce Sensitech, la superficie in gres porcellanato per interni realizzata con metodo produttivo brevettato in Italia, che associa elevate prestazioni di resistenza allo scivolamento ad un'inedita morbidezza tattile, garantendo facilità di pulizia e manutenzione.

Porcelain tiles: note on polished and silk finish / Gres porcellanato: nota sulla finitura lappata e silk

Polished and silk finishes are recommended for low-stress residential or commercial floors where anti-slip performance is not required. The surface's shine and superior ease of cleaning are the result of in-depth studies and extensive technical research aimed at ensuring its durability over time. If the product is in direct contact with the outside, use moisture and dirt absorption devices to prevent scratches. / Le finiture lappata e silk sono indicate per pavimenti residenziali o commerciali poco sollecitati, laddove non siano richieste prestazioni antiscivolo. La lucentezza e l'elevata facilità di pulizia della superficie sono frutto di studi approfonditi e accurate ricerche tecniche volte a garantirne la persistenza nel tempo. Se il prodotto è a diretto contatto con l'esterno, prevedere dei dispositivi di assorbimento dell'umidità e dello sporco per prevenire la formazione di graffi. / Les finitions rodée et soyeuse conviennent aux sols résidentiels ou commerciaux à faibles contraintes, où la performance antidérapante n'est pas requise. La brillance et la grande facilité de nettoyage de la surface sont le résultat d'études approfondies et de recherches techniques précises visant à assurer sa persistance dans le temps. Si le produit est en contact direct avec l'extérieur, prévoyez des dispositifs d'absorption de l'humidité et de la saleté pour éviter la formation de rayures. / Die Oberflächenversionen Geläpft und Silk eignen sich für Bodenbeläge in Wohnbereichen bzw. in gering beanspruchten Gewerberäumen, wenn keine Rutschfestigkeit erforderlich ist. Der Glanz und die einfache Reinigung der Oberfläche sind das Resultat eingehender technischer Studien, mit denen die langfristige Beständigkeit sichergestellt wurde. Kommt das Produkt direkt mit der externen Umgebung in Kontakt, so sind Feuchtigkeit und Schmutz mit geeigneten Mitteln aufzunehmen, um Kratzer zu vermeiden. / Los acabados lapeados y silk son adecuados para pavimentos residenciales y comerciales con poco tráfico, donde no se requiere un efecto antideslizante. El brillo y la gran facilidad de limpieza de la superficie son el resultado de profundos estudios e investigaciones técnicas precisas para asegurar su persistencia en el tiempo. Si el producto está en contacto directo con el exterior, proporcionar dispositivos de absorción de humedad y suciedad para evitar arañazos. / Лаппатированная поверхность и поверхность Silk рекомендованы для полов жилых и коммерческих помещений с невысокой интенсивностью эксплуатации, в которых от покрытий не требуется характеристик сопротивления скольжению. Блеск и легкая очищаемость являются результатом глубоких исследований, направленных на создание долговечного материала. Если плитка находится в непосредственном контакте с наружной средой, необходимо предусмотреть устройства поглощения влаги и грязи во избежание образования царапин.
